Professional Summary

Flutter Developer and final-year Computer Science and Engineering student with hands-on experience building cross-platform applications, integrating Firebase services and REST APIs, and developing backend-connected mobile solutions. Experienced with Flutter, Dart, Firebase, Django, and FastAPI, with a strong focus on reusable code, practical problem-solving, and production-oriented software development.

Experience

Junior Software Developer – Flutter November 2025 – February 2026
MemoNEET *Remote / Bangladesh*

- Developed and maintained Flutter application features using responsive layouts, reusable widgets, and modular code structure.
- Integrated REST APIs and Firebase services for authentication, database operations, and real-time data handling.
- Resolved application bugs, improved performance and stability, and collaborated with the development team to support reliable releases.
- Used Git and GitHub for version control and collaborative development workflows.

Flutter Developer / Project Developer 2023 – Present
Academic and Personal Projects *Bangladesh*

- Built multiple Flutter applications for Android, web, and desktop with Firebase backend integration.
- Designed and implemented authentication systems, Firestore databases, profile management, dashboards, notifications, and file upload features.
- Developed reusable Flutter components and package-style solutions for form handling and SQL-related workflows.
- Worked on AI-integrated applications using Gemini API, speech-to-text, and machine learning-based features.

Selected Projects

Schedula – Cross-Platform Class Scheduling App [GitHub]

- Built a cross-platform class scheduling application with schedule management, notes, announcements, downloadable files, profiles, and notifications.
- Integrated Firebase services for authentication, Firestore data management, file storage, and application data synchronization.
- Added a Gemini API-powered chatbot to assist students with academic queries.
- *Tech Stack:* Flutter, Dart, Firebase, Firestore, Firebase Storage, Gemini API.

anysql – SQL Utility Package [GitHub]

- Developed a reusable SQL-focused utility package for simplifying database operations and structured query workflows.
- Designed reusable abstractions for handling SQL queries and database interaction logic with a focus on cleaner and more maintainable database operations.
- *Tech Stack:* SQL, database operations, query handling, reusable utility design.

Lecture Recorder and AI-Powered Study App [GitHub]

- Built a mobile application that records lectures and converts speech into text for organized academic study.
- Integrated Gemini API-based exam question generation from lecture transcripts and added tools for managing generated study content.
- *Tech Stack:* Flutter, Dart, Firebase, Speech-to-Text, audio recording, Gemini API.

Hospital Management System [GitHub]

- Developed a hospital management application with patient, doctor, appointment, authentication, and profile management features.
- Implemented role-oriented dashboards and workflows for monitoring appointments and patient records.
- *Tech Stack:* Flutter, Dart, Firebase Authentication, Cloud Firestore.

Technical Skills

Languages: Dart, Python, JavaScript, Java, C++, C, SQL
Mobile Development: Flutter, Dart, BLoC, Clean Architecture, Dio, Retrofit
Local Storage: Drift, SQLite, SharedPreferences
Backend & APIs: Django, FastAPI, REST APIs
Databases & Cloud: Firebase Authentication, Cloud Firestore, Firebase Storage, PostgreSQL, MySQL
AI Integration: Gemini API, Google Speech-to-Text, Whisper, Google ML Kit, TensorFlow Lite
Developer Tools: Git, GitHub, Postman, Android Studio, VS Code

Education

Patuakhali Science and Technology University 2020 – 2026
B.Sc. (Engg.) in Computer Science and Engineering *Dumki, Patuakhali, Bangladesh*
- Graduated: August 2026

Maheshpur Govt. Degree College 2020
Higher Secondary Certificate (HSC) – Science *Maheshpur, Jhenaidah, Bangladesh*
- GPA: 5.00/5.00

Maheshpur Govt. Pilot High School 2018
Secondary School Certificate (SSC) – Science *Maheshpur, Jhenaidah, Bangladesh*
- GPA: 5.00/5.00

Achievements & Leadership

- **Vice President, CSE Club, PSTU:** Contribute to leadership, event planning, technical activities, and student community development; also organized and mentored programming bootcamps and contests.
- **Competitive Programming:** Solved 385+ Codeforces problems; current rating 1048 and maximum rating 1078. Handle: Azrul_Amaline
- **National Cyber Drill 2022:** Achieved 32nd rank in Bangladesh.
- **Bdapps Mobile App Challenge:** Participated in a national-level mobile application development competition.
- **Professional Training:** Completed Python Django training under Bangladesh Computer Council and basic computer networking coursework through Cisco Networking Academy.
