AZRUL AMALINE

Software Developer | Flutter & Full-Stack | DevOps
Bangladesh | +8801934438650 | azrul.amaline16@gmail.com
Portfolio | GitHub | LinkedIn

PROFESSIONAL PROFILE

Computer Science and Engineering graduate and Software Developer with professional Flutter development experience and hands-on expertise in building cross-platform mobile applications, full-stack web platforms, and AI-powered solutions. Skilled in Dart, Python, Django, FastAPI, Firebase, REST APIs, and relational databases, with practical experience in Linux, Git, and Raspberry Pi integration. Conducted undergraduate research on system-log anomaly detection using GRU and Multi-Head Attention. Currently exploring continual learning, cloud technologies, Docker, CI/CD, and DevOps practices to develop scalable and reliable software systems.

TECHNICAL EXPERTISE

Mobile / Application
Flutter, Dart, BLoC, Firebase, REST integrations

Backend / Web
Python, Django, FastAPI, Next.js, REST APIs

Data / AI
PostgreSQL, MySQL, PyTorch, RAG, FAISS

Infrastructure / Tools
Linux, Git, GitHub, Docker, Postman

Programming
Python, Dart, JavaScript, Java, C++, SQL

Learning
AWS, CI/CD, Terraform, Kubernetes

PROFESSIONAL EXPERIENCE

Junior Software Developer Intern (Flutter) | MemoNEET

Nov 2025 – Feb 2026

Remote, Bangladesh

- Implemented scheduled notifications, learning-task reminders and quiz-based mobile workflows.
- Debugged Flutter UI features and collaborated through Git/GitHub in a team development process.

SELECTED ENGINEERING PROJECTS

ResearchLens AI

GitHub

Full-stack AI | Next.js, FastAPI, PostgreSQL, FAISS, Docker

Developed a research-paper analysis platform featuring PDF ingestion, semantic retrieval, citation-backed Q&A, and multi-paper comparison using a modular full-stack architecture.

Mama Bus Koi

GitHub

Mobile / Location | Flutter

Built a Flutter-based bus-tracking application with crowdsourced vehicle locations, route information, departure schedules, and real-time member communication.

Syncora

GitHub

Backend Engineering | Django, REST APIs

Developed a multi-tenant business management backend supporting inventory, sales, purchasing, finance, and real-time business activity across organizations.

ROV Commander

GitHub

IoT / Robotics | Flutter, Raspberry Pi

Developed a Flutter-based robotics control dashboard integrating live video streaming, manual vehicle navigation, and Raspberry Pi telemetry monitoring.

Schedula

GitHub

Mobile / Cloud | Flutter, Firebase, Gemini API

Built a cross-platform academic management application featuring class schedules, assignments, announcements, file sharing, student profiles, and real-time notifications. Integrated Firebase services and an AI-powered academic assistant.

RESEARCH & APPLIED AI

Undergraduate Thesis | System Log Anomaly Detection — Completed 2026

Patuakhali Science and Technology University

Log Anomaly Detection in Distributed Computing Environments Using an Optimized Recurrent Neural Network with Multi-Head Attention

- Built a GRU + multi-head-attention sequence classification pipeline for distributed system logs.
- Evaluated HDFS, OpenStack and BGL datasets with imbalance handling, F1-score, and ROC-AUC.

DynaLog | Drift-Aware Continual Learning for System Logs — Ongoing

Independent research; not published

Investigating how to distinguish concept drift from anomalies in changing log streams using temporal sequence models and continual adaptation.

EDUCATION

B.Sc. (Engineering), Computer Science & Engineering — 2026

Patuakhali Science and Technology University (PSTU)

Higher Secondary Certificate | Science — 2020

Maheshpur Govt. Degree College

Secondary School Certificate | Science — 2018

Maheshpur Govt. Pilot High School

LEADERSHIP & RECOGNITION

- **Vice President, CSE Club, PSTU:** Supported technical events, programming contests, workshops, and student learning initiatives.
- **Competitive Programming:** Solved 385+ problems on Codeforces.
- **National Cyber Drill 2022:** Ranked 32nd nationally.
- **Bdapps Mobile App Challenge:** Participated in a national-level mobile application development competition.
- **President, Greater Jashore Student Welfare Association, PSTU:** Led student welfare initiatives, organizational activities, event coordination, and community engagement.

CERTIFICATIONS & TRAINING

Python & Backend: Python (Django) Training – EDGE / BCC; Python Masterclass 2022 – Udemy.

AI & Machine Learning: Python for Machine Learning; Python for Deep Learning – Udemy.

Networking & Systems: Basics of Computer Networking – Great Learning; Introduction to Packet Tracer – Cisco Networking Academy; Concepts of Operating Systems – Udemy.

Cybersecurity: National Cyber Drill 2022 – BGD e-GOV CIRT (N-CERT).

Languages: Bangla (Native), English (Professional Working), Hindi (Conversational).
